The Bicentennial Citizens Advisory Committee of the County of Warren cordially invites you to attend a Press Event on October 12, 2012 to be held in the Supervisors Board Room at the Warren County Municipal Center. This date is coincidentally 49 years and one day from the Open House and Dedication of the Warren County Municipal Center - October 13, 1963.

This exciting Press Event will unveil the new Warren County Bicentennial interactive website which is directed at students, residents, and visitors alike. Peter Aust, President and CEO of the Adirondack Regional Chamber of Commerce, will emcee this event and walk through bicentennial happenings planned for 2013.

This is just one of many programs and events being planned by the Warren County Bicentennial Citizens Advisory Committee, which was established for the purpose of identifying, planning and coordinating events and programs to commemorate 200 years of growth and development. Look for further announcements including parades and hometown programs, open houses, postal cancellations, proclamations and a souvenir booklet commemorating this 200-year celebration.
