

47. Hope Falls

The Falls on the East Stony Creek marks the junction of the Sir John Johnson Military Trail from the Ford on the Sacandaga at Canada Island with the road which goes north from old State Road No. 30 which parallels the Sacandaga River on its east side. The road to Hope Falls branches northerly and follows the stream.

About five miles beyond Hope Falls at the end of the paved road where Tenant Creek flows from the east a trail heads northward toward Harrisburg Lake.
