

### The Schaefer Leanto

About six miles to the west of Crane Mountain and about two miles west of Bakers Mills is an Adirondack Type Lean-to at the old Sugar Morehouse Place owned by Lois and Vincent Schaefer. It is available as a refuge in the event of a rainy or snowy night to all travelers of the Long Path. It is located on the left hand side of the road just above a large two story house owned by Milton and Margaret Schaefer Allen.

If the lean-to is used, all are cautioned about the use of fire. If the fireplace is used, it is essential that the embers be quenched when the hikers leave in the morning. An artesian well is located near the road in front of the Allen House. Smoking is not permitted in the Leanto.
