

68. Van der Walker Mountain Summit

The trail to Van der Walker Mountain leaves the Moose Pond Club boundary east of this private land and heads directly to the summit of the Mountain. It is a fairly easy climb and provides a fine view of Santanoni to the northwest and the High Peaks including Indian Pass, McIntyre and Marcy. Proceeding northward from Van der Walker one eventually reaches Newcomb where provisions should be checked and purchased if necessary since the next stretch of Long Path is in wild country with the next provision place at Lake Placid several days away.

At Newcomb a visit to the Adirondack Information Center maintained by the State of New York is worth a visit.
