

69. On the shore of Rich Lake at Newcomb is the Adirondack Visitor Center of the Adirondack Park Agency. This is a satellite station; the main one being on the grounds of Paul Smith College in the northwestern Adirondacks.

The Newcomb Center is not as large but has some very interesting exhibits. A series of Nature Trails run from the Visitor Center.

The village of Newcomb is the last provisioning place on the Long Path until the hiker reaches Lake Placid several days away to the north.
