| Project Priority: High | Project Type: Improvement | Is this Project in the Hazard Mitigation Plan? N | Project Category: Energy |
|-------------------------------|----------------------------------|---|---------------------------------|

Project Description:
 The electrical power distribution system and motor control centers at the WWTP are over 35 years old. Many of the components are obsolete and spare parts are no longer being manufactured. Distribution transformers are showing signs of an increased risk of failure. Transformer sizes are not matched to electrical loads, leading to wasted energy.

Comments:
 A planning study is underway.

Project Location: 2 Shermantown Road

PROJECT PLANNING AND FINANCING

| | |
|--|--|
| Estimated Cost: \$1,200,000 | Potential Funding Source(s): No |
| Has a Planning Study Been Completed? No | Useful Life: 25 years |
