

ENTITY INFORMATION

	Project Title: Green Meadows Park Dam/Spillway replacement	Project Submission Date: June 10, 2019 8:00 PM
	Entity: Stony Creek	Contact: Frank Thomas

PROJECT INFORMATION

Project Priority: Medium	Project Type: Replacement	Project Category: Parks
---------------------------------	----------------------------------	--------------------------------

<p>Project Description: At the Town's Green Meadows Park is what has been referred to as the Old Dam which is technically a digger dam, a spillway that as the water flows over digs a hole below the spillway which the Town uses as our beach.</p> <p>Comments: A guess as what the cost would be is \$200-250,000.00. If possible and permitted the sides would be replaced with concrete and just the spillway section of the structure would remain wooden.</p>	<p>Project Location: Harrisburg Rd Stony Creek</p>
