North_Bounding_Coordinate: 43.676785
South_Bounding_Coordinate: 43.455449

3. **What does it look like?**
4. **Does the data set describe conditions during a particular time period?**

Calendar_Date: Property data is updated approximately 5-6 times per year, while boundaries are updated monthly.
Currentness_Reference: Publication date

5. **What is the general form of this data set?**

Geospatial_Data_Presentation_Form: vector digital data

6. **How does the data set represent geographic features?**
 - a. **How are geographic features stored in the data set?**

This is a Vector data set. It contains the following vector data types (SDTS terminology):

- G-polygon (1725)

- ol style="list-style-type: none;">- b. **What coordinate system is used to represent geographic features?**

The map projection used is Transverse Mercator.

Projection parameters:

Scale_Factor_at_Central_Meridian: 0.999900
Longitude_of_Central_Meridian: -74.500000
Latitude_of_Projection_Origin: 38.833333
False_Easting: 492125.000000
False_Northing: 0.000000

Planar coordinates are encoded using coordinate pair
Abcissae (x-coordinates) are specified to the nearest 0.000000
Ordinates (y-coordinates) are specified to the nearest 0.000000
Planar coordinates are specified in survey feet

The horizontal datum used is North American Datum of 1983.
The ellipsoid used is Geodetic Reference System 80.
The semi-major axis of the ellipsoid used is 6378137.000000.
The flattening of the ellipsoid used is 1/298.257222.

Why was the data set created?

For real property assessment purposes and general reference.

How was the data set created?

1. From what previous works were the data drawn?

Variable (source 1 of 1)

Type_of_Source_Media: Hardcopy survey maps

Source_Scale_Denominator: 1" = 50', 1" = 100', 1" = 200', 1" = 400'

2. How were the data generated, processed, and modified?

Attribution exported from the Warren County Real Property System (RPSv4) was joined to the geodatabase boundary layer of parcels. The feature class was then exported to ESRI shapefile format.

3. What similar or related data should the user be aware of?

How reliable are the data; what problems remain in the data set?

1. How well have the observations been checked?

Information is accurate as the publication date of data.

2. How accurate are the geographic locations?

10 Feet (+/-)

3. How accurate are the heights or depths?

4. Where are the gaps in the data? What is missing?

Town of Bolton Tax Parcels - METADATA

The physical placement of the parcel boundaries is complete as of the publication date. Merges and splits in parcel boundaries after this date are NOT reflected in the geometry of the layer. Property information from the municipal assessor may not sync perfectly with the boundaries due to frequency of uploads provided to the County.

5. **How consistent are the relationships among the observations, including topology?**
-

How can someone get a copy of the data set?

1. **Are there legal restrictions on access or use of the data?**

Access_Constraints:

None

Use_Constraints:

This data is provided "as is". This data has been collected for County purposes and in providing this data Warren County makes no warranties or guarantees, expressed or implied, including warranties of title, non-infringement, merchantability and that of fitness for a particular purpose concerning this data. No representation is made concerning the completeness or accuracy of any data contained herein. Warren County shall not be responsible for any claims attributable to errors, omissions or other inaccuracies and in no event shall Warren County be liable for any direct, indirect, special, incidental or consequential loss or damage of any nature caused to any person, party or entity as a result of use of this data. User assumes all risks and responsibility for determining whether this data is sufficient for purposes intended.

2. **Who distributes the data set?** (Distributor 1 of 1)

Sheri Norton
Warren County Planning Department
GIS Coordinator

Hours_of_Service: 9am-5pm, M-F

3. **What's the catalog number I need to order this data set?**

Data must be requested by either: phone, in person, email, or by using the on line request form (<http://www.co.warren.ny.us/gis/dataform.htm>).

4. **What legal disclaimers am I supposed to read?**

Town of Bolton Tax Parcels - METADATA

Please see legal restrictions regarding usage and liability. However the data is used; please provide credit to both Warren County and Town of Bolton.

5. How can I download or order the data?

- **Availability in digital form:** Native format is a personal geodatabase, but can be provided in shapefile format upon request. Geodatabase version consistent with current ESRI licensing, although an earlier version (back to 9.2) can be provided upon request.
- **Cost to order the data:** \$15.00 for Parcel DVD (includes all municipalities in Warren County) in geodatabase format or \$10 for CD in shapefile format. If data is required in an earlier geodatabase version there will be an additional \$10 fee.
- **How long will it take to get the data?** 1 week
