**From:** McLenithan, Sarah  
**Sent:** Tuesday, January 19, 2016 12:33 PM  
**To:** Tennyson,Jeff; Butler, Paul; Hajos,Kevin; Morehouse, Frank; Dubarry, Ross  
**Cc:** Ganotes,Molly  
**Subject:** Pending Items for January 25th meeting of Public Works Committee and January 26th meeting of the County Facilities Committee

Please be advised of the following pending Items:

**Public Works:**

**DPW:**

No items this month.

**PARKS, RECREATION & RAILROAD:**

No items this month.

**County Facilities:**

**AIRPORT:**

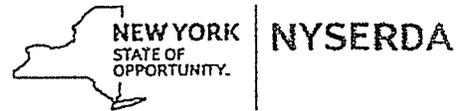

- 1) FBO and restaurant lease agreements to be amended as necessary once an operator has been identified for the restaurant. (06.01.15) Update: Resolution No. 314 of 2015 states that within sixty (60) days of June 19, 2015, Schermerhorn Aviation, LLC shall provide an in-person report to the County Facilities Committee on the status of the construction of the new stand alone restaurant, the status of efforts to obtain a tenant, the anticipated opening date and hours of operation. (06.19.15) Mr. Dubarry advised that Mr. Schermerhorn or his representative would provide the status update at the August Committee Meeting. (07.27.15)
- 2) Mr. Dubarry to develop spreadsheet of Airport revenues vs. expenditures and provide suggestions for how revenues could be increased and expenditures decreased. (10.27.15)

**BUILDING & GROUNDS:**

- 1)
  - 1) Committee to investigate the possibility of making County campuses smoke free. (09.01.15)
  - 2) Committee to hold discussion on Siemens energy savings contracts at next meeting to determine whether savings obtained are equal to the amount identified; County staff to perform review and provide findings. (11.18.15)

Thank you

**Sarah McLenithan**

# Program Update

As of September 2015, there are changes to FlexTech Program eligibility and cost-share amounts. Read the program information below for more details.

## FlexTech Program

FlexTech is seeking to provide objective, site-specific targeted technical assistance and analysis that results in implementation of clean energy technologies. FlexTech will cost-share site-specific technical assistance with demonstrated potential for energy savings or process improvement where information for an implementation decision is unavailable. Eligible study areas are:

- Cost-shared targeted clean energy technical analyses and strategic energy management assistance to eligible existing facilities
- Cost-shared on-site combined heat and power (CHP) feasibility studies for eligible customers

Nonresidential customers with an average electric demand of 100 kW or less may be eligible for an energy assessment through the Small Commercial Energy Efficiency Program.

### Choosing a Consultant

Customers may work with a NYSERDA FlexTech Consultant [PDF] or an independent service provider.

NYSERDA FlexTech Consultants are firms under NYSERDA contract to provide statewide geographic distribution of the eligible project categories. Firms must apply to NYSERDA using examples of energy efficiency expertise. Learn more about the process for using FlexTech Consultants

### Becoming a FlexTech Consultant

Firms are contracted on a continuous basis to conduct energy studies and help customers prioritize opportunities for energy savings. Learn about applying to become a FlexTech Consultant. When ready to apply, complete the Online Application and you will be contacted by NYSERDA within two days.

### How To Apply

- Energy study funding is available through the Consolidated Funding Application on a first-come, first-served basis until funds are exhausted.
- See PON 1746 for complete program and application requirements.

## **Who Can Participate**

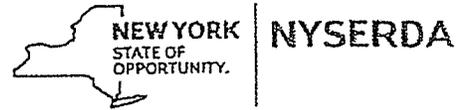

Nonresidential facilities in New York State that pay into the SBC including:

- Health care
- Industrial and commercial
- Not-for-profit and private institutions, public and private K-12 schools colleges and universities
- State and local governments

## **Who To Contact**

- [FlexTech@nyserda.ny.gov](mailto:FlexTech@nyserda.ny.gov)

## Program Update

As of September 2015, there are changes to FlexTech Program eligibility and cost-share amounts. Read the program information below for more details.

# Process for Using FlexTech Consultants

The following steps outline how to engage FlexTech Consultants for a technical analysis or combined heat and power (CHP) feasibility study:

1. The customer submits a Consolidated Funding Application for an energy study.
2. If the customer and project are eligible, NYSERDA assists the customer in selecting a NYSERDA FlexTech consultant (if necessary) and may schedule a site visit or scoping call where all three parties can get together to review the facilities and discuss the project.
3. The NYSERDA FlexTech Consultant will collect sufficient information to develop a Scope of Work (a.k.a. Task Work Order) and all parties will agree to the tasks to be included in the study. The customer signs the FlexTech Terms and Conditions.
4. The NYSERDA FlexTech Consultant presents the draft Scope of Work and customer signed terms and conditions to NYSERDA. NYSERDA reviews Scope for technical and program compliance.
5. NYSERDA emails the Scope of Work to customer for review.
6. The customer reviews the Scope of Work, requests revisions (if necessary), and agrees to final Scope of Work.
7. The customer and the FlexTech Consultant negotiate terms for payment of customer's share. At this point in the process, the customer's financial obligation for cost-sharing begins.
8. The NYSERDA FlexTech Consultant receives a Notice to Proceed from NYSERDA.
9. The NYSERDA FlexTech Consultant undertakes the study in accordance with the Scope of Work and develops draft report. The draft is submitted to NYSERDA for review. NYSERDA submits the final report to the customer.

# RESOLUTION REQUEST FORM NO. 20

## MISCELLANEOUS

*\*Please List All Other Requests Not Covered by Previous Resolution Request Forms Here.  
Please attach any backup information available and be as detailed as possible.*

DEPARTMENT NAME: Department of Public Works

DATE: January 26, 2016

- (a) Purpose of Request: Authorization for payment made to Rozell East in the amount of \$11,429.42 dollars and BPI Mechanical Services, Inc in the amount of \$44,577.91 dollars for work completed with Capital Project H350 - Court Space Expansion.
  
- (b) Details: Work has proceeded rapidly on the Temporary Family Court Space since October 2015 in an effort to have the space available by January 2016. A term agreement for HVAC Services was awarded by competitive bid to BPI Mechanical Services (RFB WC74-14, January 2015). An additional term agreement for Plumbing Services was awarded by competitive bid to Rozell East (RFB WC 52-15, August 2015). Work was rapidly initiated in the former law library area under those existing contracts. Shortly after the start of work, the Purchasing Agent identified that the work should have been bid as a stand alone project because the project total cost exceeded a \$35k limit for Public Works projects. DPW immediately stopped work by the contractors and an additional Bid Package was developed with the assistance of the project engineers, CPL. The separate bid was awarded to the same contractors (BPI and Rozell) under RFB WC 78-15 in December 2015. DPW staff reviewed the quantity of materials and labor expended prior to December and asked both contractors for partial invoices. Requesting BOS authorization for payment made to Rozell East in the amount of \$11,429.42 dollars and BPI Mechanical Services, Inc in the amount of \$44,577.91 dollars for work completed prior to the project specific Bid WC78-15.
  
- (c) Previous Resolution Number:
  
- (d) Where are the Funds (if required)? List Budget Code, Object Code, Full Title\* and Amount: H350.9950 280 Court Space Expansion \$15,336,533.85..
