## **Countywide EMS System**

**Not enough staff to provide for EMS Services with the County?**

**How to Fund and Establish a Countywide EMS System.**

**My suggestion is for any Community or Entity who is currently having staffing issues, consider joining in on a Countywide EMS system.**

**Why a Countywide System vs Individual Town EMS Districts.**

- A. Most EMS Organizations use the same providers**
- B. Most EMS Providers work for these Organizations without any Retirement Benefits, Vacation Time and health insurance Benefits. Basically they are on their own.**
- C. Providers will move from organization to organization if the pay is better, Why not!**
- D. It's time to finally provide the service that our communities want and deserve.**

**Create a Countywide EMS District. Only those communities who elect to join the district would pay any taxes or revenues toward the district.**

**Warren County would hire the Employees to work in the District. ALS or EMT**

**Warren County would oversee the scheduling of the employees along with the EMS agencies whose Town joined the District.**

**Warren County would bill for services for all communities in the District.**

**Administrative staff would be kept to a minimum.**

**Organizations could lease their current rolling stock to the County.**
