Warren County Sheriff

1400 State Route 9
Lake George, NY 12845

Outfitting the Warren County Sheriff's Office with a rugged and reliable body-worn camera (BWC) and less-lethal weapons solution should be a top priority. The system you choose should be designed to help limit false accusations, build trust in your community, and ultimately keep your officers safe.

That is why Axon Enterprise, Inc. (Axon) believes the Warren County Sheriff's Office should implement our Axon Officer Safety Plan 7+ Premium (OSP 7+ P) package specifically created for law enforcement, which bundles hardware, software accessories, equipment refreshes, and warranties together to help equip your officers with the solutions they need to uphold your mission.

With the implementation of our solution, Axon can offer the Warren County Sheriff's Office:

- ▶ Reliable hardware, including cameras, docks, tasers and accessories, as well as complimentary mobile applications
- ▶ A comprehensive DEMS that makes sharing, managing, and redacting evidence simple
- ▶ Predictable annual spend
- ▶ Reduced liability
- ▶ Increased efficiency and safety

The unbundled standard price of this tailored OSP 7+ Premium solution would total **\$1,671,630** over a five-year period. Due to the size and technological needs of the department, Axon has agreed to provide a price of **\$1,274,922**. This bundled discount will result in a savings of approximately **\$396,707** for the county over the next five years.

If you have any questions regarding our proposal, pricing, or products, please contact Jesse Lowe by phone at 704.376.2029, or via email at jlowe@axon.com.

We look forward to working with the Warren County Sheriff's Office to implement our robust OSP 7+ Premium program.

DETAILED PRODUCT OVERVIEW

AXON BODY 3 – SEE TRUTH IN THE MOMENT

Axon Body 3 isn't just a camera: it's a rugged communications beacon front and center on every call. Featuring our new Axon Respond technology and an LTE connection that enables real-time features like GPS; Body 3 empowers officers with more support in the moment. Coupled with enhanced low-light performance and reduced motion blur, which provides clearer evidence in the now, more efficient AI-powered processes after the fact, and most importantly, safer communities in the long run.

Axon Body 3

AXON RESPOND FOR DEVICES REAL-TIME TECHNOLOGY

Picture this—an officer is in a foot chase away from their vehicle, losing certainty of their exact whereabouts during a life-or-death situation. With our new Axon Respond for Devices situational awareness technology, an officer need not worry about where a pursuit may take them because they can now stay connected wherever they are with alerts sent to Axon Evidence. These alerts can then allow supervisors to locate and provide officers support in the moment. With features like live maps and live-streaming to our connected devices, Axon Respond for Devices focuses on providing real-time awareness and is truly a game-changing new platform that will continue to include advanced capabilities as your needs evolve.

SIMPLE, STREAMLINED OPERATION

Take back time with simpler device operation and program management. With time-saving features like rapid recharge and offload, you can leverage your camera as an AI-powered personal assistant that integrates with our other solutions and limits your administrative burden.

THE TECHNOLOGY ASSURANCE PLAN (TAP)

The Technology Assurance Plan (TAP) is a service plan that combines warranty coverage on your Axon body cameras with automatic refresh units every 2.5 years. Minimizing the chance that an officer goes on duty without a camera, TAP includes on-site spare units, as well as an extended warranty at no additional cost through the life of the agreement. TAP not only protects your agency today—it ensures it will stay protected in the future.

TASER 7

The TASER 7 energy weapon is designed to give officers the confidence to de-escalate dangerous situations. The following new components, technology, and features easily distinguish the TASER 7 energy weapon from its predecessors:

- ▶ Redesigned darts with Smart Probes to improve accuracy, increase target retention, and improve attainment
- ▶ Inclusion of Close Quarter and Standoff cartridges that provide different angles of separation in the top and bottom probes to achieve optimal probe spread at varying distances
- ▶ Revamped Adaptive Cross Connect technology uses an advanced algorithm to check and recheck the connections between positive and negative probes to deliver the most effective pulse from the TASER 7 energy weapon
- ▶ New Rapid Arc technology to achieve better full-body lockup by delivering more pulses at a more frequent rate
- ▶ High-visibility green top laser to enable better daytime targeting
- ▶ Louder warning arc to serve as an additional deterrent for noncompliant behavior

The TASER 7 energy weapon is the first energy weapon to feature wireless connectivity to Axon applications. This connectivity improves and automates workflows, so officers can focus on policing.

The TASER 7 energy weapon uses removable, rechargeable batteries that function as much more than a power source. Through a “Dock and Walk” workflow – much like that used by Axon body-worn cameras – the batteries act almost like encrypted USB drives. Every time a battery is plugged into a TASER 7 energy weapon Dock, it uploads the energy weapon’s data logs to Axon Evidence and receives available firmware updates automatically. So, the next time an officer plugs the battery into a TASER 7 energy weapon, the device runs the most up-to-date software.

We have improved several armory and administrative functions with Axon Evidence and Axon Device Manager, a connected mobile application for managing device assignments in seconds. Axon Evidence includes better search functionality and device status reporting to assist inventory management and tracking.

TASER 7 CERTIFICATION BUNDLE

The TASER 7 energy weapon Certification bundle is a safety-focused package of TASER 7 energy weapon accessories and services. With advanced and comprehensive training, this bundle ensures officers are fully equipped and prepared to use their TASER 7 energy weapons in the field. The package includes:

- ▶ TASER 7 energy weapon cartridges
- ▶ End-user Training
- ▶ Access to Online Training Content
- ▶ Access to Virtual Reality Training Content
- ▶ HTC Focus 3 Virtual Reality Headset for agencies with 50+ officers
- ▶ Hook and Loop Training (HALT) Suit for agencies with 50+ officers
- ▶ Instructor Training Voucher for 5% of the agency's total officer count
- ▶ Training Target
- ▶

SIGNAL ACCESSORIES

AXON SIGNAL SIDEARM – A smart sensor that attaches to an officer's holster. The Signal Sidearm sensor uses Axon Signal technology to trigger Axon body-worn cameras within range to start recording automatically when an officer's weapon is drawn.

AXON SIGNAL TASER 7 – Axon Signal in Taser 7 will activate any Axon Body Worn camera within a 30-50 ft radius once the Taser is activated.

AXON SIGNAL VEHICLE – Axon Signal Vehicle is configured to alert any Axon body worn camera when a vehicle's light bar is turned on, when a vehicle is involved in an accident, or when a vehicle reaches a certain speed. Axon Signal will beacon for 30 seconds and trigger any Axon Body Worn camera within a 30-50 ft radius to activate.

A SMARTER, HARDER-WORKING DEMS

Axon Evidence is at the core of Axon's network, and with its easy-to-use interface, managing and storing your data can happen all in one place. With robust cases functionality, redaction capabilities, intuitive sharing workflows, and a complimentary prosecutor platform, our cloud-based DEMS is packed with features that will only improve over time.

Axon Evidence

ADDITIONAL FEATURES & APPLICATIONS

AXON AUTO TAGGING – Take information from your existing CAD/RMS to automatically add metadata to your videos housed in Axon Evidence.

AXON AUTO-TRANSCRIBE – Axon Auto-Transcribe includes two features—Review Assistant and Transcription Assistant—to help agencies expedite evidence review and transcription processes. Review Assistant is designed to help agencies accelerate the process of reviewing evidence, while Transcription Assistant is designed to help agencies quickly produce admissible transcripts.

AXON REDACTION ASSISTANT – Cut down redaction work significantly by letting the Redaction Assistant automatically detect and track the screens, license plates, and faces in a video.

AXON CITIZEN FOR COMMUNITIES – With Axon Citizen, you can invite individual witnesses, or the entire community, to submit photos and videos of an incident directly to your agency. One-to-one submissions and community-wide portals help get to the truth quickly.

AXON PERFORMANCE – Streamline supervisor reviews and measure your body-worn camera policy performance in near real-time and identify areas to improve training and establish clearer policies.

AXON RECORDS – Axon Records allow agencies to take advantage of automated workflows related to creating reports, responding to calls for service, engaging with community members, and bringing criminals to justice.

AXON CAPTURE – Axon Capture is a mobile application built specifically for law enforcement that allows officers to capture digital evidence right from the field. The application eliminates the need to carry multiple devices for photo, video, and audio recording. Instead, it uses the capabilities of the smartphone already in your pocket and adds the security and organization needed to protect truth. You can add tags, titles, or GPS coordinates to any recording before uploading the data to Axon Evidence, without leaving anything on your phone.

AXON THIRD PARTY STORAGE – Many agencies still use systems outside of the Axon ecosystem (interview rooms, CCTV, in-car cameras) – with third party video storage and playback, agencies can utilize Axon Evidence as their centralized database for all evidence. This creates more efficient workflows, saving time and resources when it comes time to building cases.

AXON VR AND SENSORY TRAINING

Axon Empathy Development Training in VR utilizes virtual reality's many educational benefits to better train officers on alternative de-escalation tactics for situations involving persons in crisis. The OSP 7+ Premium package includes an HTC headset, and access to Axon's several training scenarios. Each scenario first places the trainee in the unique perspective of a subject in crisis, and then into the perspective of the responding officer where the trainee is tasked with different decisions to gain the subject's compliance.

- ▶ **Scalable, Wireless Platform**

VR Training is offered on the industry-leading HTC VIVE Focus Plus, a compact system requiring no external PC, cameras, or dedicated room space

- ▶ **Expert Content**

We work with subject matter experts like career clinicians, crisis intervention and mental health counselors, educators, community leaders and more throughout the content creation process, from defining learning objectives to scripting (axon.com/vr)

- ▶ **Basic, Intermediate & Advanced Experiences**

Officers build critical thinking skills by progressing through increasingly complex, realistic scenarios that require them to make decisions under evolving conditions

- ▶ **Bias Prevention Features**

Training can randomize various factors in a scenario, such as gender and race, to help officers prepare for real-world variety

- ▶ **Focus On the Most Common Encounters**

Unlike traditional simulators, Axon VR Training centers on developing de-escalation skills needed to successfully resolve the most common calls for service, such as domestic violence or other crises, rather than solely on once-in-a-career lethal force encounters

- ▶ **Axon Device & Software Integration**

Simulator Training includes a training TASER energy weapon and firearm and integrates with Axon Evidence and Axon Academy for streamlined program administration. Future integrations include Axon body cams and Axon Performance software.

JOINING FORCES THROUGH AXON'S ECOSYSTEM

We've long made the priorities of law enforcement our own, and your challenges ours to solve. When you partner with Axon, you're partnering with a team of product experts, security professionals, engineers, technology specialists, and former law enforcement personnel. We are dedicated to pushing the boundaries of technology and are committed to delivering on those efforts, to offer law enforcement the solutions needed to help make the world a safer place. By becoming a part of the Axon Ecosystem made up of connected devices and apps, the Warren County Sheriff's Office can better position itself to protect fellow officers and the communities you serve.

Our mission to protect life and truth in the field, at the station, and in the courtroom is unwavering, and we are prepared to join forces with you, to keep your officers and community safe.

/ BE OBSESSED

We never want to develop or sell something that you don't want or need. We're obsessed with creating products that solve real problems and add value. If it doesn't benefit you, then we rethink what we're doing.

/ AIM FAR

We want to reinvent the world to be a safer and better place. We've failed spectacularly a few times, but that's what you get when you aim for the stars. That's our final destination.

/ WIN RIGHT

We are fiercely competitive and have an unquenchable thirst to win, but we don't think winning and doing the right thing are mutually exclusive. Our challenge is to make them synonymous and never compromise our integrity.

/ OWN IT

We empower individuals to step up and take initiative. To be an owner and see things through to completion. That's the only way we've been able to succeed as a company, and it's the only way we will continue to grow.

/ JOIN FORCES

Creating the future is a team sport. When a company scales globally in 40 different markets with multiple technology stacks ranging from wearables, cloud solutions, and energy weapons, you need teamwork. We're one global team committed to an audacious vision.

/ EXPECT CANDOR

Candor gets critical issues elevated, puts truth on the table, and reaches the right answer faster. How can we be the best version of ourselves and the best company we can be, if we can't offer and be given critical feedback?

Standard Terms and Conditions

Axon Enterprise Inc. Sales Terms and Conditions

Axon Master Services and Purchasing Agreement:

This Quote is limited to and conditional upon your acceptance of the provisions set forth herein and Axon's Master Services and Purchasing Agreement (posted at www.axon.com/legal/sales-terms-and-conditions), as well as the attached Statement of Work (SOW) for Axon Fleet and/or Axon Interview Room purchase, if applicable. In the event you and Axon have entered into a prior agreement to govern all future purchases, that agreement shall govern to the extent it includes the products and services being purchased and does not conflict with the Axon Customer Experience Improvement Program Appendix as described below.

ACEIP:

The Axon Customer Experience Improvement Program Appendix, which includes the sharing of de-identified segments of Agency Content with Axon to develop new products and improve your product experience (posted at www.axon.com/legal/sales-terms-and-conditions), is incorporated herein by reference. By signing below, you agree to the terms of the Axon Customer Experience Improvement Program.

The parties agree that Axon is granting a refund of \$16,045.73 to refund paid, but undelivered services. This discount is based on a ship date range of 12/1/2022-12/15/2022, resulting in a 1/1/2023 license date. Any change in this date and resulting license start date will result in modification of this discount value which may result in additional fees due to or from Axon.
