# What to expect

Replenish is designed to empower community leaders who want to launch and operate their own circularity center, backed by Replenish's technology and resources.

## What You Do

### Provide land with utilities

At a minimum, here's what you'll need:

- Land with concrete pad (5,000 sq. ft. minimum)
- Three-phase electric power
- Fenced area / controlled access
- Permit(s) and insurance
- Nice to have: building/shelter, forklift, loading dock

### Build your team

Running a circularity center requires, at minimum, 80+ hours of labor per week. We recommend 1 full-time and 2 part-time team members who can support the collection and processing of materials from community members and businesses.

### Collect & sell material

Encourage residents to bring recyclables to your new Circularity Center and our software will handle the rest (including rewards from brands). When you have enough material, we'll help you sell it for the best rate and coordinate the logistics.

### Grow your positive impact

With the Circularity Center as a hub of your community, we can further monetize by supporting local pickups, hosting events, and much more. Your community will be at the forefront of the transition to circularity and an inspiration to other communities around the globe.
