Legislation Negatively Impacting Fiber Optic Projects in NYS

Section 7

Agreement for fiber optic utility use and occupancy of state right of way
Transportation Corporations (TCP)

Agreement for fiber optic utility use and occupancy of state right of way. The commissioner of transportation is hereby authorized to enter into an agreement with any fiber optic utility for use and occupancy of the state right of way for the purposes of installing, modifying, relocating, repairing, operating, or maintaining fiber optic facilities. Such agreement may include a fee for use and occupancy of the right of way, provided, however, such fee shall not be greater than fair market value. Any provider using or occupying a right of way in fulfillment of a state grant award through the New NY Broadband Program shall not be subject to a fee for such use or occupancy. Any fee for use or occupancy charged to a fiber optic utility shall not be passed through in whole or in part as a fee, charge, increased service cost, or by any other means by a fiber optic utility to any person or entity that contracts with such fiber optic utility for service. Any compensation received by the state pursuant to such agreement shall be deposited by the comptroller into the special obligation reserve and payment account of the dedicated highway and bridge trust fund established pursuant to section eighty-nine-b of the state finance law. Nothing herein shall impair, inhibit, or otherwise affect the ability of any municipality to regulate zoning, land use, or any other power or authority granted under the law. For purposes of this section, "municipality" shall include a county, city, village, or town.
