RE: Glens Falls Police Datamaster

The Glens Falls Police Department Datamaster was removed from service on January 16<sup>th</sup> 2024 at 07:30 and was not placed back in service until January 26<sup>th</sup> 2024 at 16:19. The instrument was removed from service due to a flooring project which took place inside of the police station. The project was going to create a large amount of dust. During this time the instrument was stored in a safe area boxed up. I was the officer to take the instrument apart and secure it as well as the officer which put the instrument back in service. Upon placing the instrument back in service, I ran a weekly test which showed the instrument to be operational.

A handwritten signature in black ink, appearing to read "R. Pedone".

#5757

Patrol Lieutenant Ryan S. Pedone
